EDUCATION

Computer Science Engineering Program

CS.CODE.IN

09/2021 - 12/2022

Hyderabad, India

B.E. CSE Computer Science Engineering

Lords Institute of Engineering And Technology
(Osmania University)

08/2019 - 07/2023

Hyderabad, India

WORK EXPERIENCE

Software Engineer at T-Works

T-Works

08/2023 - Present

Hyderabad, India

T-Works is India's largest prototyping centre. T-Works is an initiative of the Government of Telangana that is aimed to create and celebrate a culture of hobbyists, makers, and innovators in India

Achievements/Tasks

- Developed a Project Management Tool using React frontend, Node.js with Express backend, and SQL database. Enhanced collaboration, real-time updates, and streamlined project management.
- Created an innovative Desk Visitor Notification App, ensuring seamless communication by alerting desk users about guest visits. Improved workplace efficiency and guest experience.

Campus Lead

EdVenture Park

01/2021 - 05/2023

Hyderabad, India

India's First Student Focused Business

Incubator Achievements/Tasks

- Worked with startups in building their products and launching them in the market
- Skilled in creating website designs that are visually appealing, user-friendly, and optimized for search engines
- Proficient in using design software such as Adobe Photoshop, Sketch, and Figma to create website layouts, wireframes, and mockups.

PERSONAL PROJECTS

Project Management Tool for Employees

(08/2023 - 11/2023)

- Developed a Project Management Tool using React frontend, Node.js with Express backend, and SQL database. Enhanced collaboration, real-time updates, and streamlined project management with Dashboards.

Desk Visitor Tracker (08/2023 - 08/2023)

- An application that instantly alerts desk users when a guest visits their workspace. Stay informed, provide a warm welcome, and enhance guest experiences effortlessly. Seamlessly integrate with your office's visitor management system for efficient and courteous service
- GitHub : <https://github.com/suhailroushan13/guestCamera>

Web Compiler (04/2022 - 06/2022)

- Compile & run your code with the online IDE. Our web compiler supports multiple programming languages like Python3, C++, C, NodeJS, Java, Ruby and Bash
- Deployed Link - <https://compiler.csprojects.live>

Marks-Sheet CLI to PDF Automation (12/2022 - 12/2022)

- Demonstrated proficiency in using command-line interfaces (CLI) and PDF libraries to automate the conversion of a marks sheet CLI to a PDF.
- GitHub:<https://github.com/suhailroushan13/CLI-To-MarksSheetPDF>

Track My Bus (College Bus App) 1K+ Downloads

(08/2021 - 10/2021)

- Track My Bus is an App which provides Real time location of the College buses. This app was built for and by students of Lords Institute of Engineering and Technology
- App on Play Store :- <https://shorturl.at/intvB>

WORK EXPERIENCE

Cyber Security Analyst Supraja Technologies

08/2020 - 12/2020

Hyderabad, India

Cyber Security & Digital Marketing services organization in India

Achievements/Tasks

- Completed an internship in ethical hacking and cybersecurity, gaining experience in identifying vulnerabilities
- Demonstrated proficiency in tools and techniques such as Metasploit, Wireshark, and Nmap.
- Worked collaboratively with security teams to identify and respond to emerging threats and security risks.

PERSONAL PROJECTS

Social Media Automation (03/2023 - 04/2023)

- Social media automation is a useful technique that can save time, increase productivity, and improve engagement with your audience. By using automation tools and programming languages like Express with APIs for Instagram, Twitter, LinkedIn, and Medium, you can schedule posts
- GitHub: <https://github.com/suhailroushan13/SocialMediaAutomation>

Pinger (08/2023 - 08/2023)

- An Node.js application periodically pings a list of websites and sends an SMS notification using Twilio if any of the websites are down or respond with an error. It utilizes Express for the web server and Axios for making HTTP requests.
- GitHub : <https://github.com/suhailroushan13/pinger>

CERTIFICATES

CS.CODE.IN (09/2021 - 12/2022)

A CS Engineering Fellowship Program focused on building Real Time Industry-Based Applications with core focus on fundamentals of CS

Supraja Technologies (08/2022 - 12/2022)

Completed an Internship in Ethical Hacking and Cybersecurity, gaining experience in identifying vulnerabilities.
